“He took a bullet and came back with a mission.”

Reality survived the other side of the bullet — a State Trooper’s gunfire, a walk through the light, and a system built to bury men like him. But death didn’t take him. It taught him. Now he’s back in Far Rockaway fighting a bigger war: the streets that raised him, the daughter he’s sworn to protect, the young soldiers searching for a way out, and a country still choking on the same old injustices. From the radio airwaves to the community stage, from a father’s warning to a mentor’s vision, he’s building an empire of influence meant to outlive him. But evolution has a price. Old enemies don’t forget. The system doesn’t forgive. And when Community Day arrives, everything he’s built — and everyone he loves — hangs in the balance. REALITY II: THE EVOLUTION is the explosive second volume in the Reality series — a raw, unflinching saga of survival, fatherhood, justice, and the making of a legend. Some men die legends. Reality chose to live long enough to become one.

ABOUT THE AUTHOR

King Legacy is an indie author writing urban street lit that hits different. His novels — REALITY, JEWEL, and THE DRIP CAPITAL — dive into survival, strategy, family, and the price of ambition, set against the raw pulse of the streets. With BONNIE, he turns to real life, honoring faith, fight, and legacy. Every book is built on one belief: some legacies aren’t inherited — they’re built.
