REALITY

A NOVEL

Book One of the Reality Saga · followed by REALITY II: THE EVOLUTION

by King Legacy

"Reality doesn't play games. He changes them."

Reality doesn't play games. He changes them. In the Redfern Houses of Far Rockaway, Reality moves different. While everybody else plays checkers, he's studying the chessboard — a young hustler with a chess player's mind in a world where a .38 is never far and violence is a trap. Then Cassie walks up to him in a pool hall, calculation in her eyes — and the game starts shifting under his feet. Now every move counts. The streets are watching. One wrong step and the trap closes: his freedom, his name, a father's promise — all of it on the line in a game where even a beautiful stranger might be playing an angle of her own. But Reality isn't just trying to survive the streets. Piece by piece, he's building something most never live to see: a blueprint. The Action Speaks seminars. A masterclass forged from pain to purpose. Survival. Strategy. Betrayal. Loyalty tested under fire. Will Reality outthink the trap — or become another name the streets forget? Can he keep his father's promise when the game takes everything? Step into Reality for $0.99.

ABOUT THE AUTHOR

King Legacy is an indie author writing urban street lit that hits different. His novels — REALITY, JEWEL, and THE DRIP CAPITAL — dive into survival, strategy, family, and the price of ambition, set against the raw pulse of the streets. With BONNIE, he turns to real life, honoring faith, fight, and legacy. Every book is built on one belief: some legacies aren't inherited — they're built.
